Dear John

I just wanted to add to my telephone feedback to you, post our Independents Day event.

It was a pleasure to work with a consummate professional who was always on top of things. It was refreshing to have a speaker that was readily contactable and responsive, to the extent that you were chasing me for the background info you needed to deliver your best on the night!

And deliver you did... The background information you researched from David and I left the audience feeling you understood our industry and their issues. Thanks largely to your professionalism, both as a speaker/entertainer and businessman, the after-dinner speech set the tone for the following days programme perfectly, making the whole event look thoroughly thought through and joined-up.

Thank you once again.

Kind regards

Yours sincerely
